NEDA (National Eating Disorders Association) provides resources and support to individuals and families affected by eating disorders. Their website offers information on anorexia, bulimia, binge eating disorder, and other eating disorders. The site also includes a directory of treatment providers, support groups, and educational resources. NEDA works to increase awareness about eating disorders, reduce the stigma associated with them, and encourage people to seek help. Their mission is to create a culture that does not stigmatize and discriminates against those affected by eating disorders, allowing individuals to live healthy, full lives.
